Name : Nurul Anissa binti Huzaini.

Matric ID : A17DW4087.

EXERCISE 26 : Write the program below and display the output.

```cpp
1    //Nurul Anissa binti Huzaini
2    //A17DW4087
3
4    #include <iostream>
5
6    int breakOrReturn()
7    {
8      while(true)
9      {
10       std::cout << "Enter 'b' to break or 'r' to return: ";
11       char ch;
12       std::cin >> ch;
13
14       if (ch == 'b')
15       break;
16
17       if (ch == 'r')
18       return 1;
19     }
20     std::cout << "We broke out of the loop\n";
21
22     return 0;
23   }
24
25   int main()
26   {
27     int returnValue = breakOrReturn();
28     std::cout << "Function breakOrContinue returned " << returnValue << '\n';
29
30     return 0;
31   }
```

```
Anissa
Enter 'b' to break or 'r' to return: b
We broke out of the loop
Function breakOrContinue returned 0

Press any key to continue . . .
```

```
Anissa
Enter 'b' to break or 'r' to return: r
Function breakOrContinue returned 1

Press any key to continue . . .
```
